CLASSIK MOVIE *Hi-Fi World, UK Oct 2007*

"The new Classik Movie System is an aesthetic and ergonomic triumph...Finish is superb, and this, along with the beautifully designed front panel (with much inspiration from the Linn CD12, I note) makes it a real joy to use.

The Classik Movie is one of Linn's best products to date. Everything from the superb design, build and finish to the excellent stereo and multi-channel sound (and even a fine picture too) shows what the company can do at a relatively modest price. That it can mix it and win against such distinguished competition is all the more encouraging, but not surprising perhaps, as they were there first all along!"

"Linn joins Tag Heuer and Louis Vuitton in the upper echelons of lifestyle manufacturers with the Movie/Komponent package. The Movie and Komponent is gorgeously crafted eye-candy of the first order. If you want a superbly built one make system offering a spectacular mix of convenience, style and performance, Linn's Classik Movie/Komponent package just can't be beaten."

Home Theater magazine (USA) June 2006. , June 2006

"Sound trumps all the rest. Exquisitely well-measure tonal balance. Simple enough to make the manual almost superfluous. Sturdy, proprietary speaker terminals. Linn takes a rigorous, no-nonsense approach to the DVD receiver concept. Sound is the top priority here. The learning curve is not intimidating and the product is of modest dimensions, fitting easily into any room."
